

## 172.835 ASIO driver installation

Install Cross DJ LE 2.2.0 and after that install the ASIO4All driver that is included on the cd

Start up Cross DJ LE 2.2.0 and go to File->Preferences  
Go to the TAB Audio and choose the ASIO4All V2 driver in the drop-down-menu  
Click on Control panel next to it

You will now get a new window  
Click on the wrench in the right-lower corner

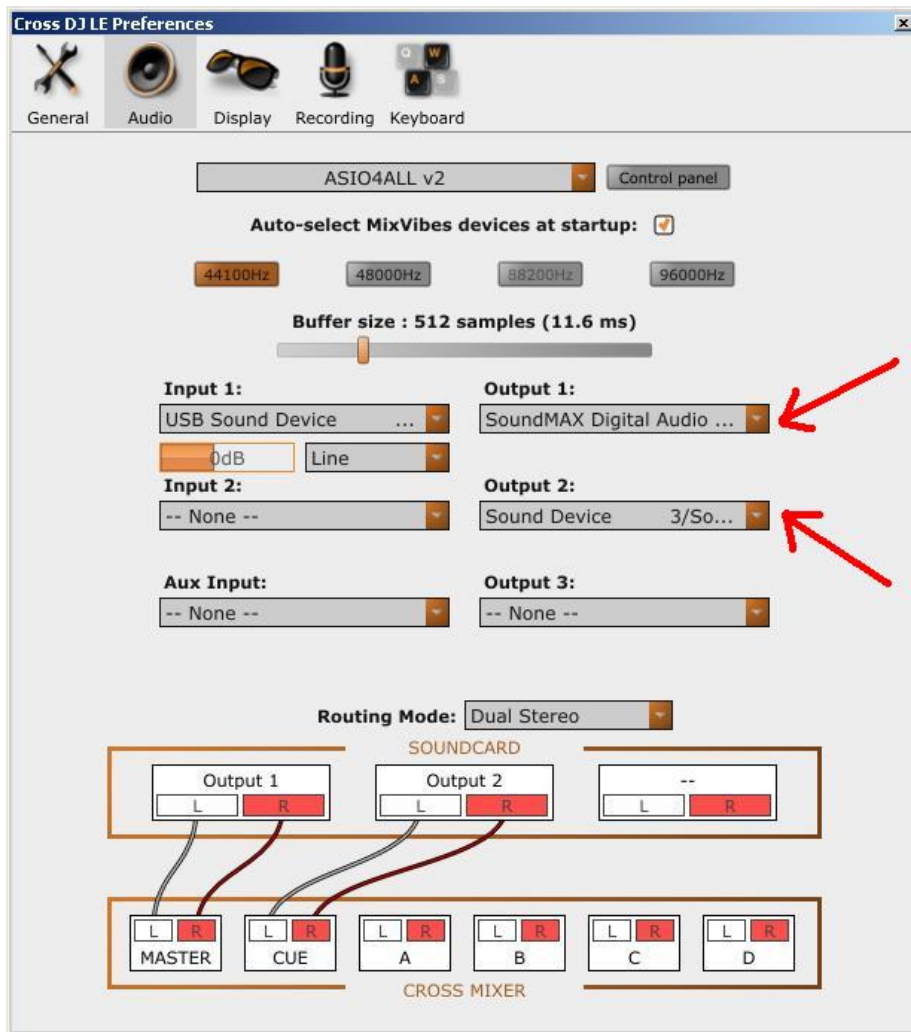

Make sure you select both your internal soundcard (in this case its an SoundMax) and your USB Sound Device (this is the mixer)  
It should look like the picture below:

Then you can close this window and you come back to preferences

Choose @ output 1: your internal sound card (in this case the SoundMAX)  
And @ output 2: the sound device (here I have selected 3 / 4

**Now it should work!**
